overall width	28 or 31"	seat depth	18 or 20"

The Wilcare Group of Companies,
Vale Business Park Cowbridge
CF71 7PF Wales, United Kingdom

Designed and manufactured in Britain by Wilcare, MultiCare is a unique 3-motor multi-adjustable portable rise and recline chair for residential care homes.

Combining portability with core support via its Tilt-in-Space function, it features 4" rear brake castors and push handles for easy maneuvering.

Ideal for users with limited core strength, the 3-motor mechanism independently controls the footboard, backrest, and tilt-in-space feature.

This allows for a wider range of comfortable positions whether watching TV, reading, eating, or napping. Not to mention the ability to get the feet higher than traditional models. Ideal for clients with circulatory issues.

Suitable for use with most hoists and stand-aids, this model is upholstered as standard in wipe-clean, anti-microbial Crib 5 faux leather. Pressure care options are also available as upgrade options.
